Welcome!

Please add yourself to this map

https://padlet.com/glovely/ISTE22Map

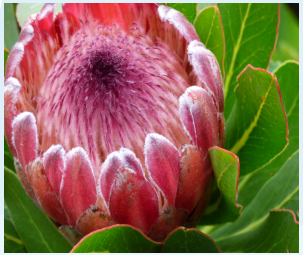
https://padlet.com/glovely/ISTE22Map

When the link opens, touch/click on + and then type in your location, when the location window opens you can choose your text, the color of your pin and choose “Publish”

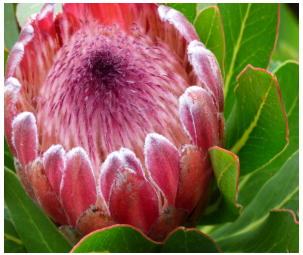
“Learning is rarely done in a vacuum...”
?

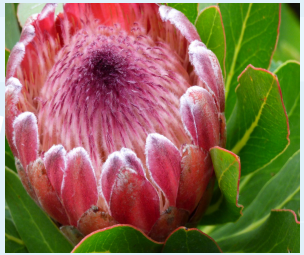
IMAGE PARADE

This activity included items available during the session… a collection of 3 cards from the Ouisi Nature Collection. (See alternative image with items in your backpack, purse, desk drawer….)

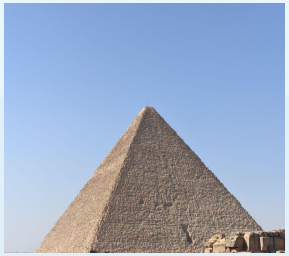


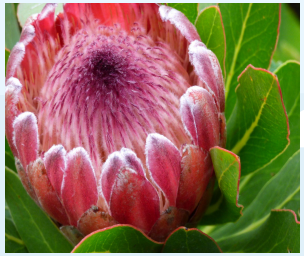
Look at your “image parade”.
Take a picture of your parade.

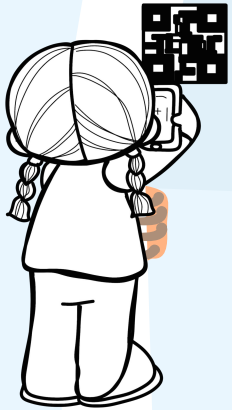




Decide how the second image is like the first image. THEN decide how the third image is like the second image.

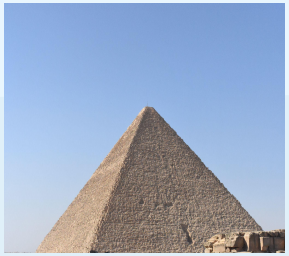


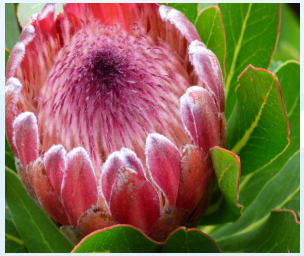




Scan the QR Code or go to

https://padlet.com/glovely/natureparade





Add a picture of your parade and the description of how the second image is like the first and the third is like the second image.

https://padlet.com/glovely/natureparade

Why Share?

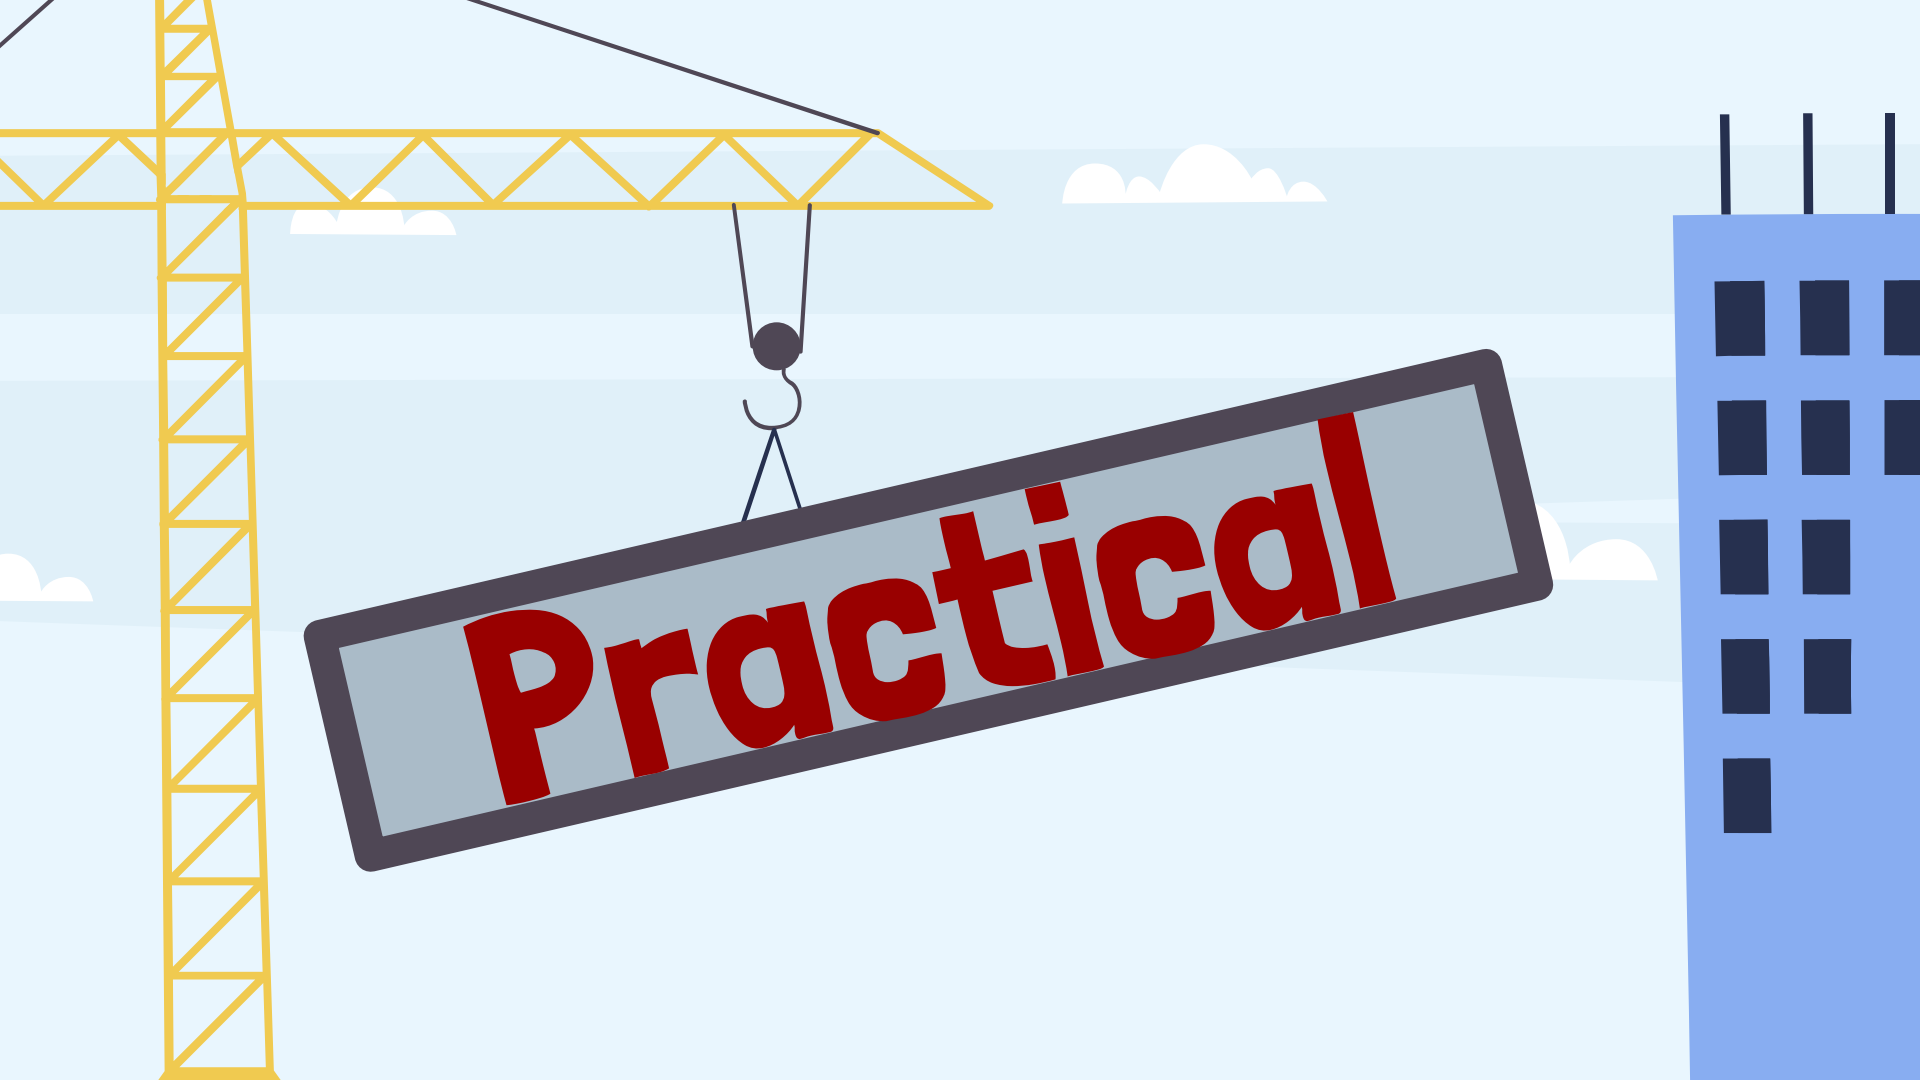
Why work together?

Why use technology?

Why this tool?

What kind of thinking did you need to do?

This session:

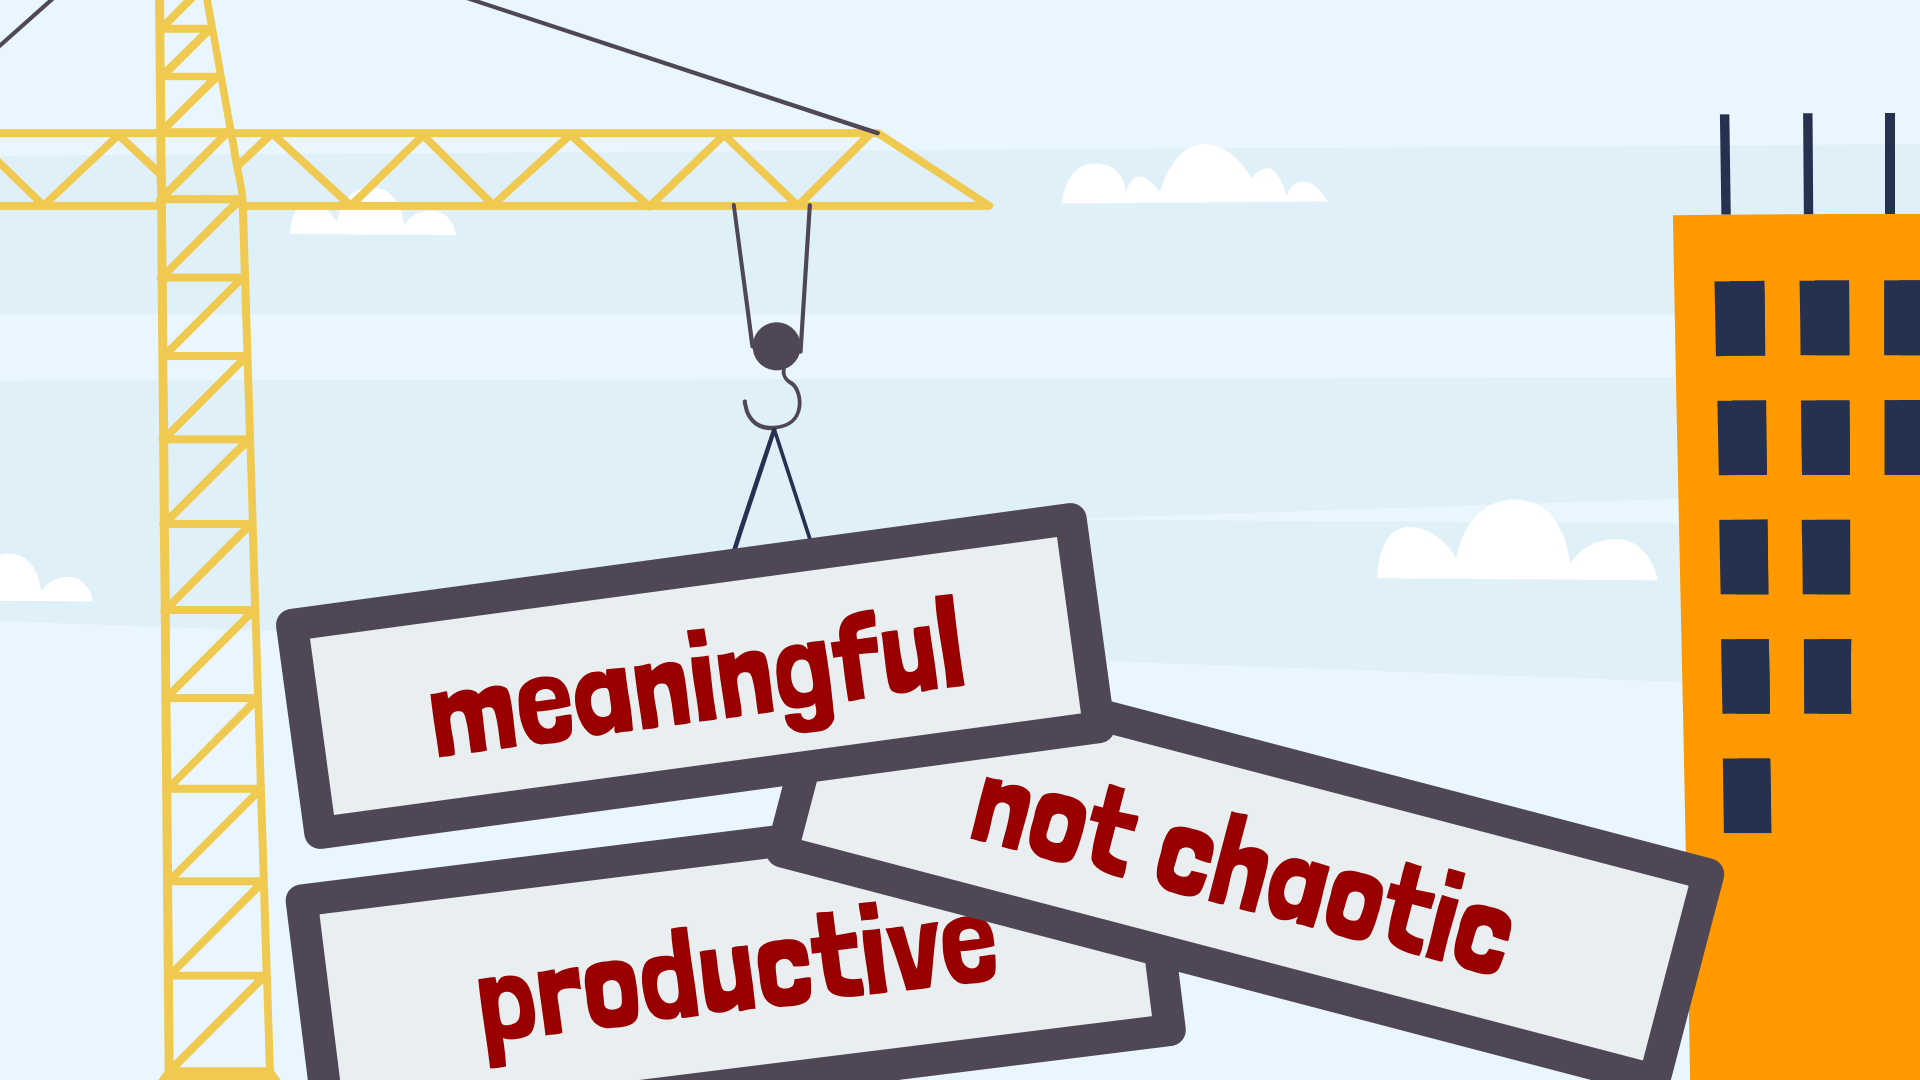


Practical

Active

Collaborative

So Class Activities will be:



meaningful
not chaotic
productive

The "Plan"

Introduction

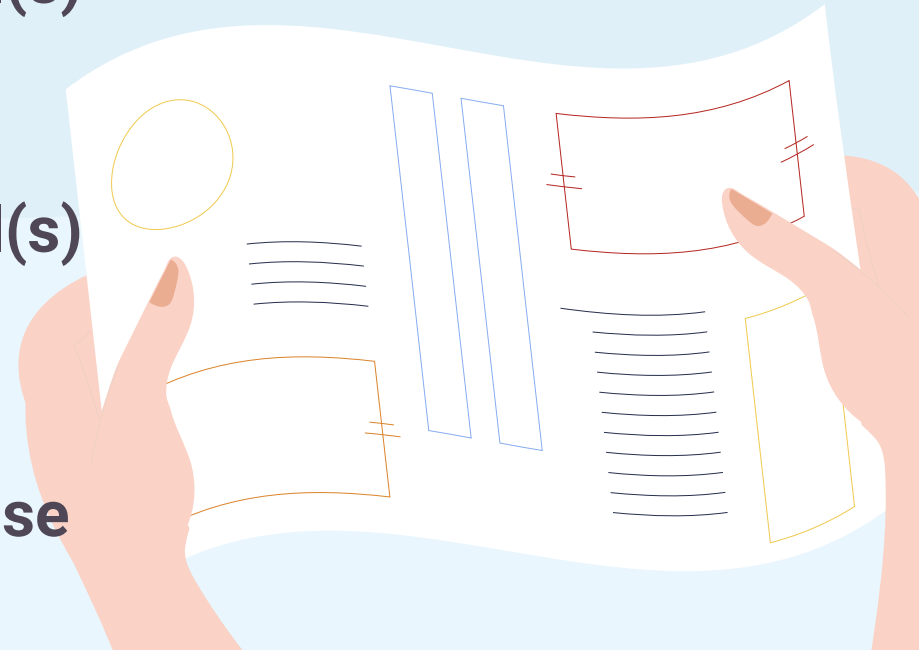
Of concepts, Idea(s), Tool(s)

Exploration

Of concepts, Idea(s), Tool(s)

Application

Make, or begin making, something(s) you could use



Good tools...

Are Easy-to-Use

Time to learn to use
< using it

Have many uses

Useful for many tasks, purposes, uses

Persist and Grow

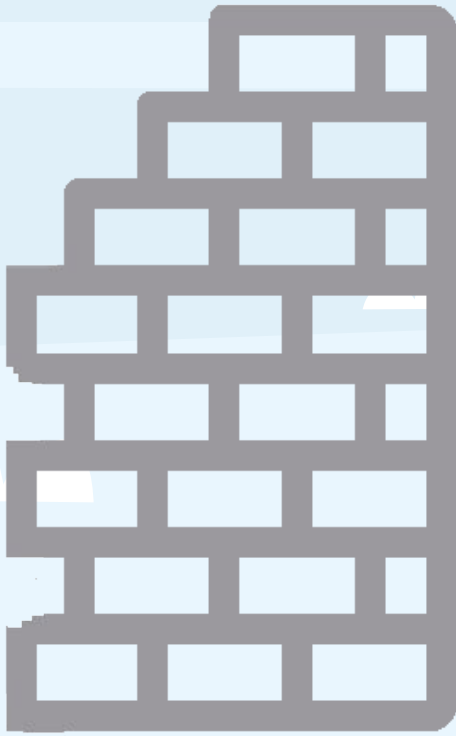
Can be used over and over without degraded value

The Tool is only ONE part...

Making it Work

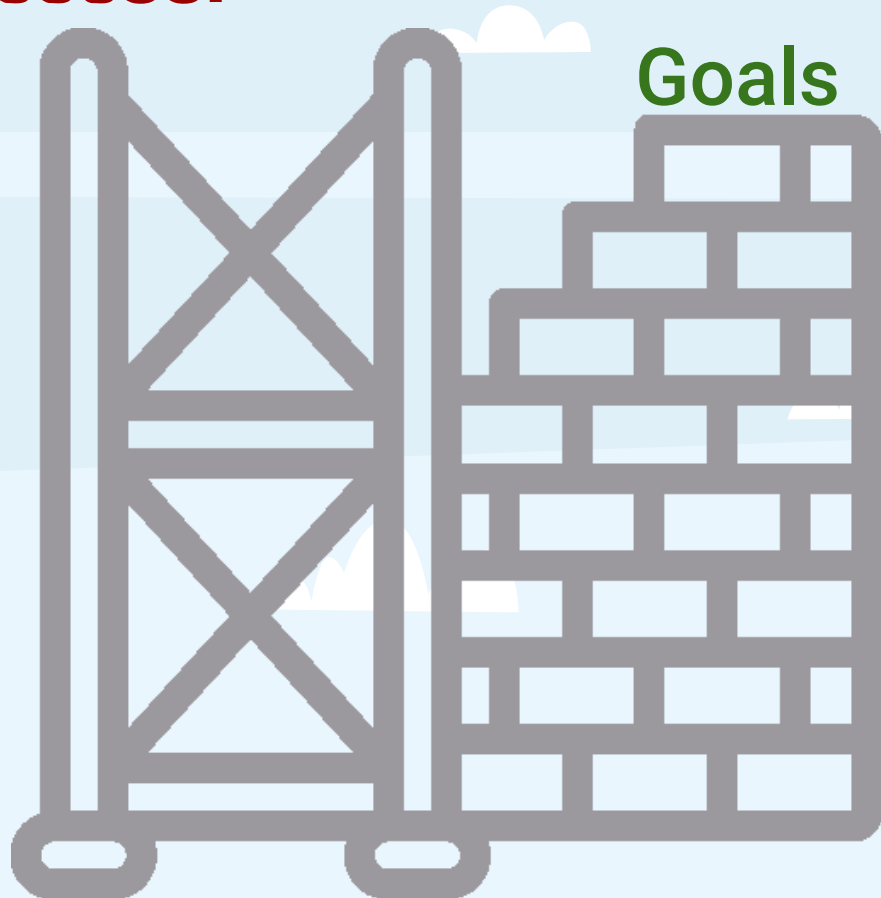
Requires more than a good tool or idea...

Clear Goals



Not “just” a tool to explore, a defined goal has an end, timing, a purpose and a planned audience…

Scaffolding for greater success!



As we explore a few tools and examples watch for scaffolding in each example/tool...

Padlet

Book Creator

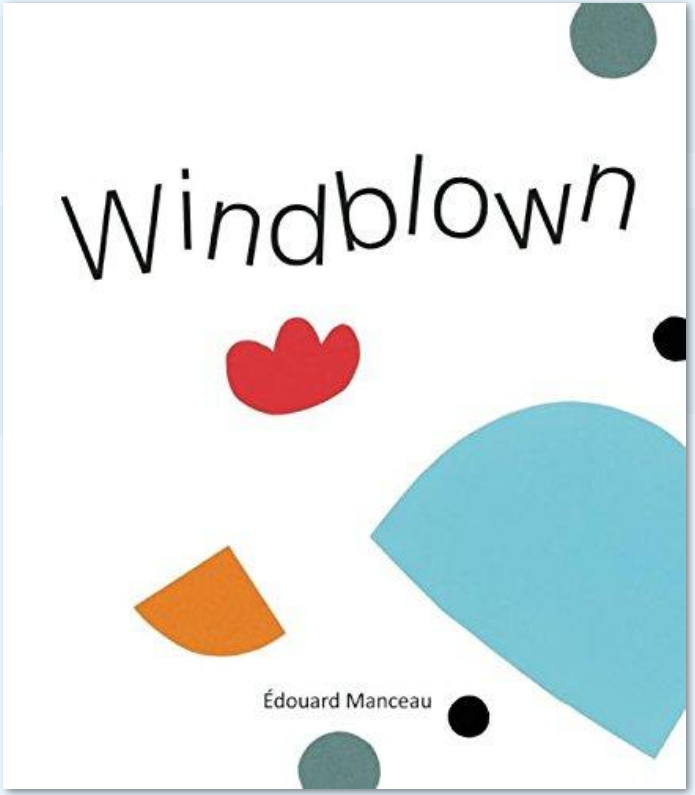
(Online version, not the app…)

BookCreator.com

Free for 1 library and up to 40 books
School and teacher licensing for a fee.

https://read.bookcreator.com/1BUQQAjZqpYbgOelChQOuzc17rg2/d5x3szL9TQqVrrvDxkJRAw

Windblown by Edouard Manceau



Another creative activity based on a book.

https://safeshare.tv/x/ss62a6119354be3

TASK:

Using Book Creator, Use the shapes from "Windblown" to create a new "scene". Add words to describe your work

Book Creator

To try this activity, log into Book Creator **as a teacher**; choose “Join a Library”,

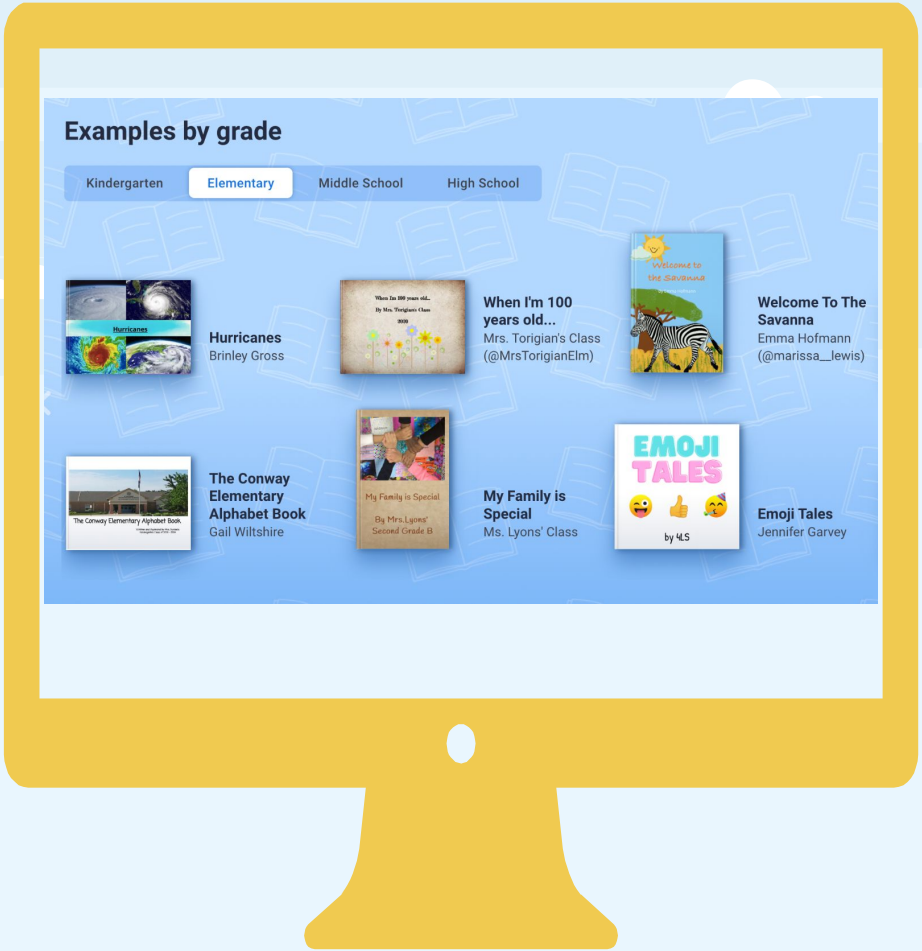
The Code is:

HTLV6QZ

Choose a page which looks like this:

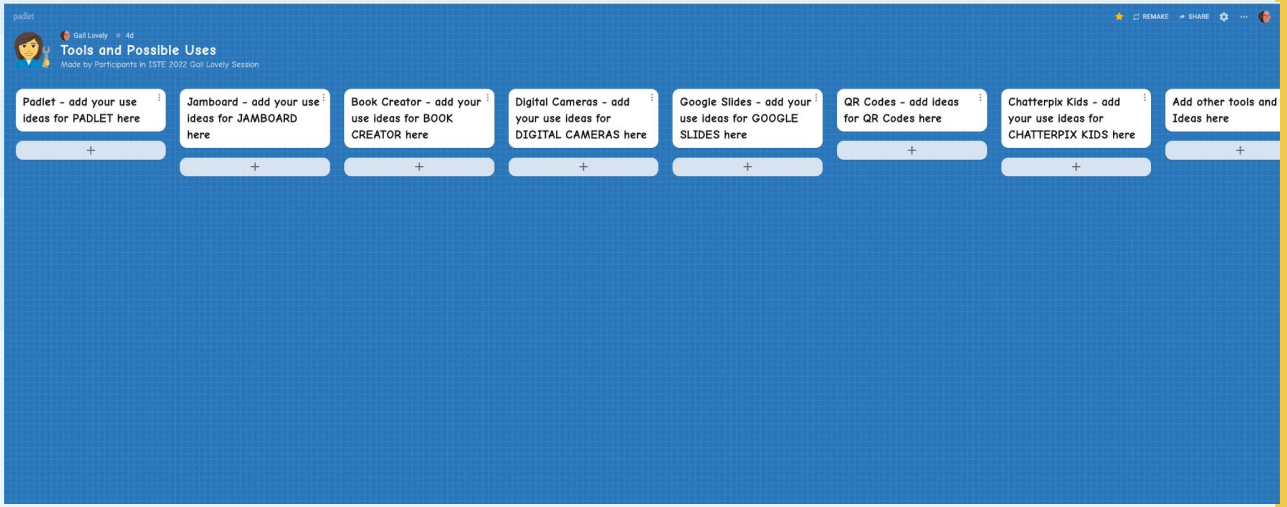
Book Creator

https://read.bookcreator.com/



Padlet

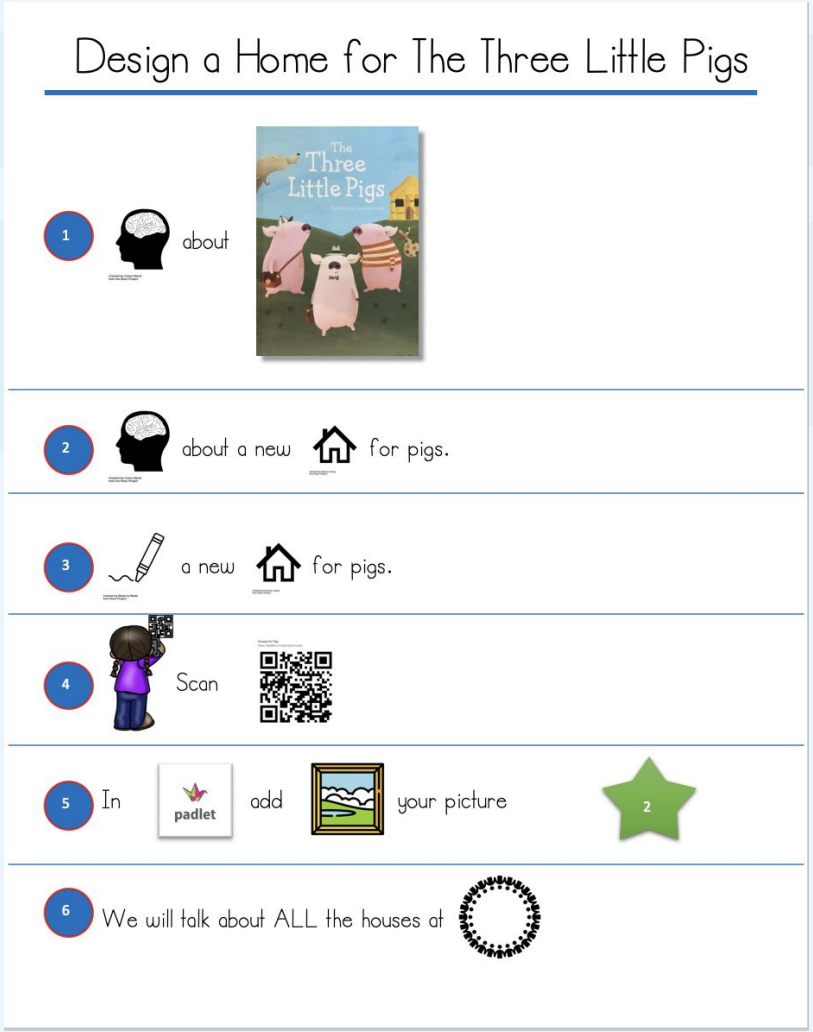
https://padlet.com/glovely/tooluses



Shared Learning (add your ideas and thoughts on this padlet throughout the session and after.)

QR Codes

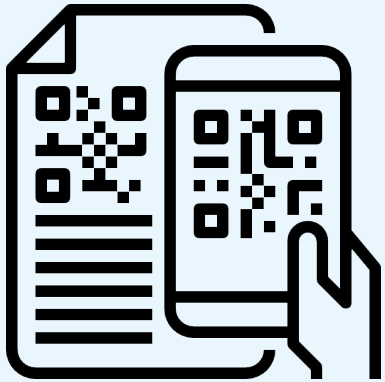
- Provide access to online sites/materials
- Provide access to audio (to support limited readers and those who use other languages)
- Provide video instruction, information and more.

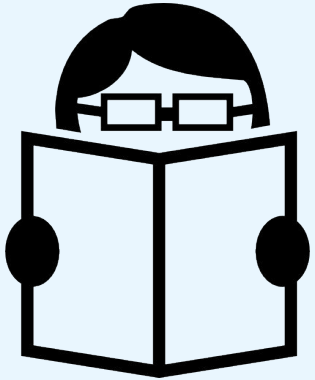


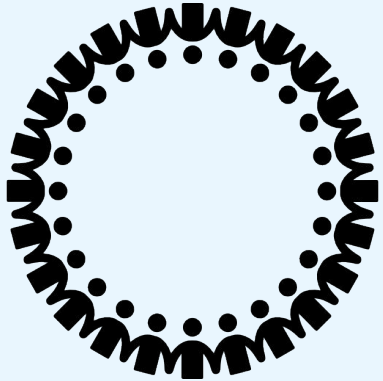
Icons

- Use consistent icons to help learners know what to do.

(I often use flaticon.com)







What about Apps?

TOOLS:

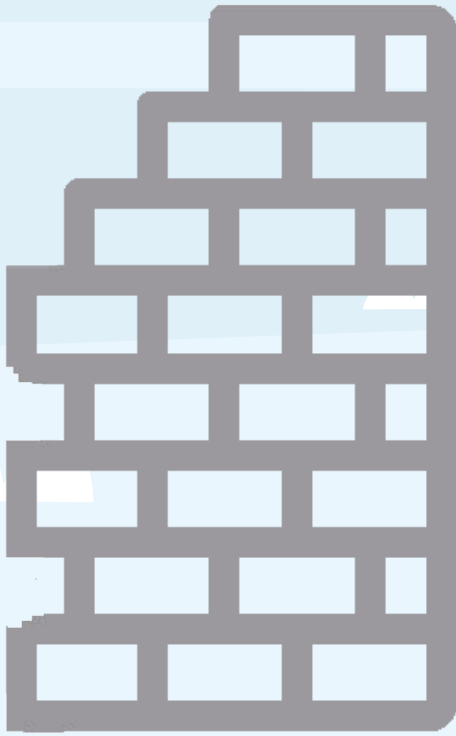
Chatterpix Kids
Draw and Tell
Felt Board ($)
PicCollage Edu ($)
Scratch Jr
Tayasui Sketches School
Green Screen by Do Ink ($)

CONTENT:

Epic!

Making it Work

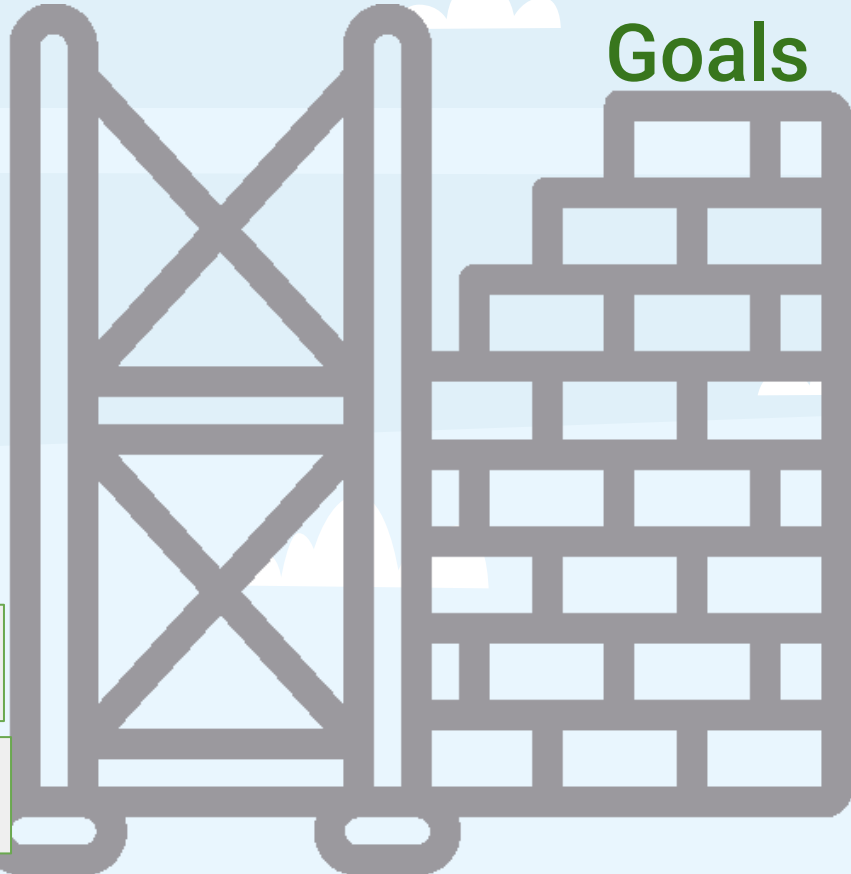
Always start with clear goal(s) which are understood by learners.



Scaffolding for greater success!

Known Tools

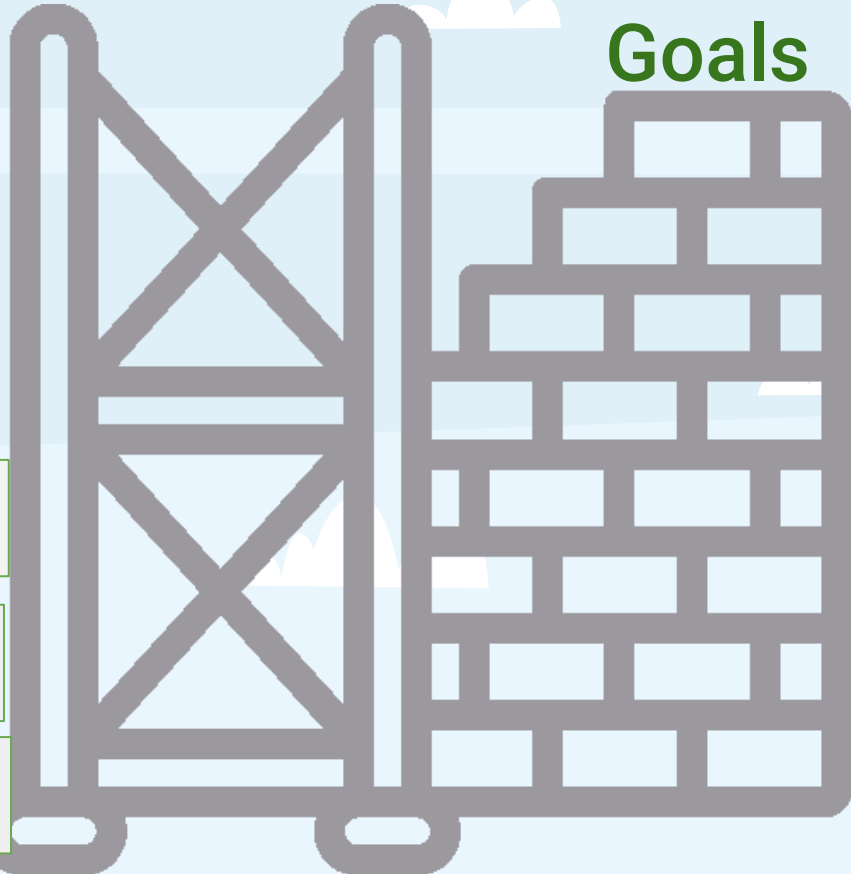
Scaffolding for greater success!



Support in multiple formats

Known Tools

Scaffolding for greater success!

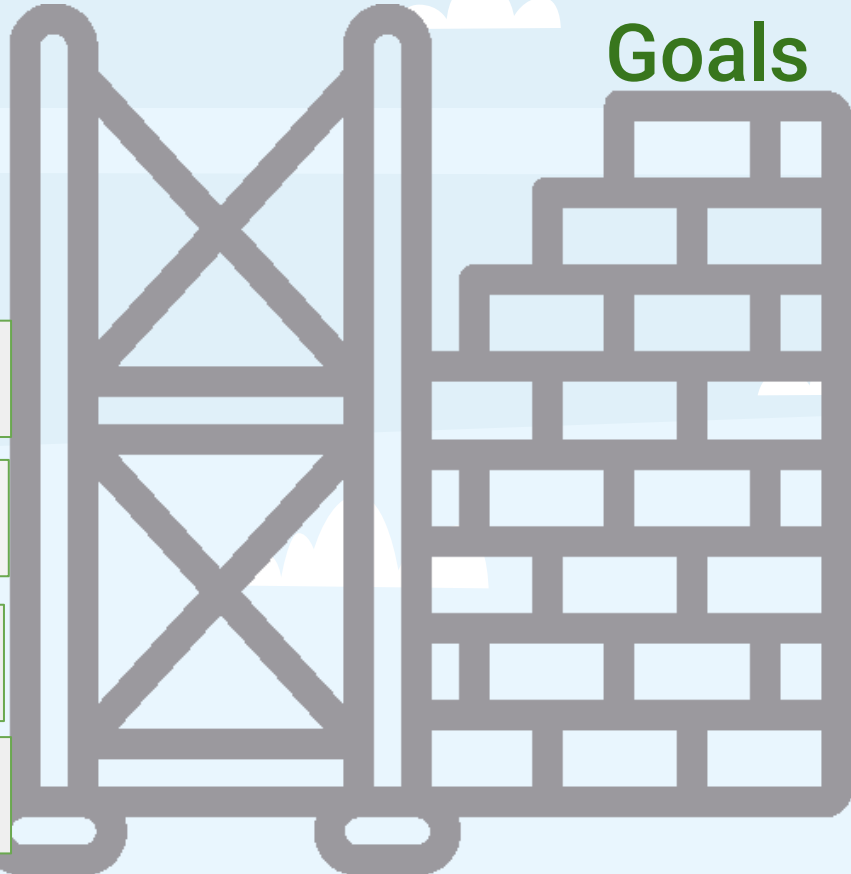


Just in Time Supports/Resources

Support in multiple formats

Known Tools

Scaffolding for greater success!



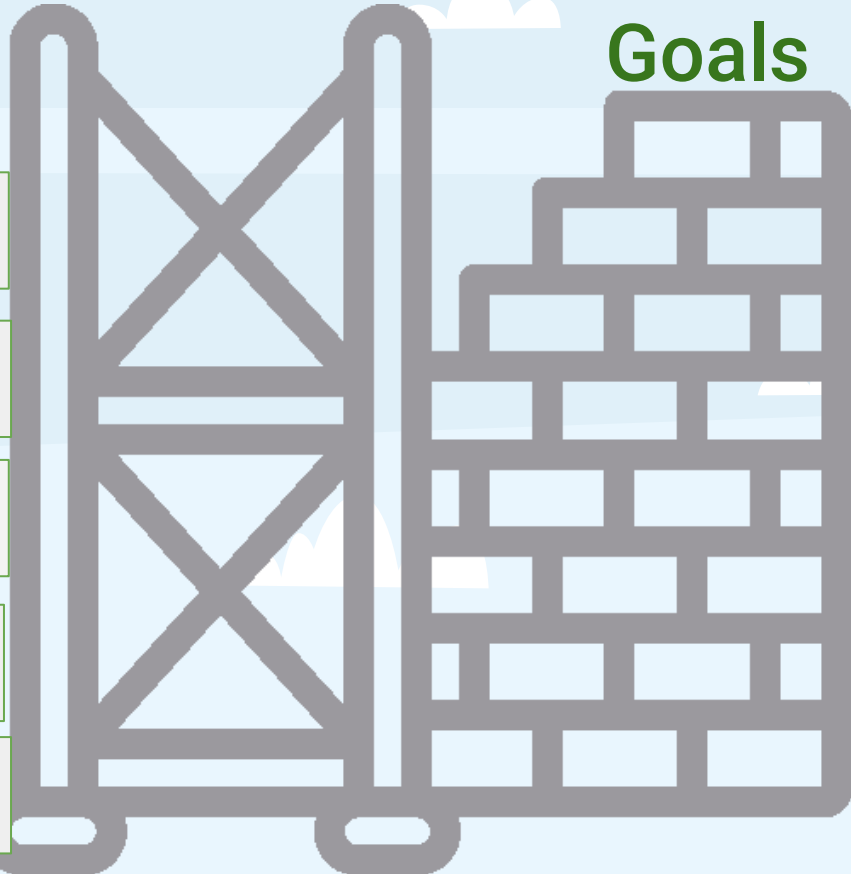
Goal/product/finish line is known & "real"

Just in Time Supports/Resources

Support in multiple formats

Known Tools

Scaffolding for greater success!



Reflection and sharing are valued

Goal/product/finish line is known & "real"

Just in Time Supports/Resources

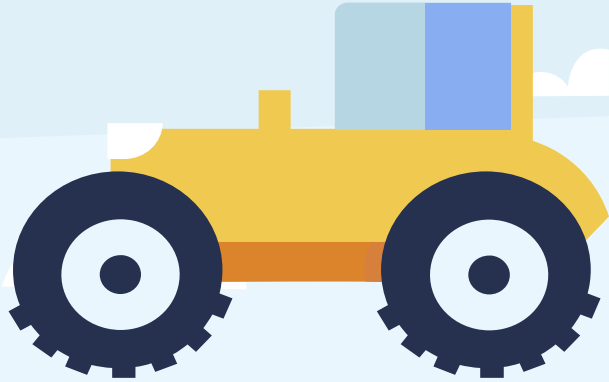
Support in multiple formats

Known Tools

Where to start?

Think of an educational/learning experience for little learners

What tool(s) will you/they use?
What scaffolding will you create?
What will their specific task be?
How will they know when they are “done”?
What will be shared and how?
When will reflection take place?



Project sharing

Make it real by sharing your idea, goal or project

https://padlet.com/glovely/LittleLearnersSharing

A few additional resources are gathered here:

https://bit.ly/resourcesforISTE

Thank you!

ISTE 22

Please reach out to me with your ideas, thoughts, and questions.
